# 1. ABOUT THE BRAND

Entering the world of Home Décor in 2014, Yahalomis takes a multidisciplinary approach to creation led by Tal Hadar & Roy Yahalomi, a husband and wife design duo with a collective skill base that ranges from Industrial Design to Animation, their diverse backgrounds give Yahalomis' designs a delightfully artistic edge.

The Tel-Aviv based label is known for its fine design language. Specialising in ceramic home goods that are fun and functional, the Yahalomis spend a lot of time thinking about the usability of their collection, constantly trying out and developing new materials and techniques. Their collection of Lava rocks & pastel coloured ceramic pieces spring from a variety of approaches, values and needs.

Mixed with the right amount of minimalism and elegance, Yahalomis' products are timeless in their design and can be passed down through generations.

## 2. ABOUT US

Yahalomis is led by Roy Yahalomi, Industrial Designer and Musician, graduate of the Industrial department at the Holon Institute of Technology, and Tal Hadar, Animator and Designer, graduate of the Screen Based Arts department at the Bazalel academy of Art and Design, Jerusalem.

Ever since we have met, we have been working together on mutual projects. Even when working individually, imagining and consulting with each other was always part of our process. Inevitably, it was only natural to join hands & minds, and make it official. In our work process, we combine our different backgrounds as we aspire to create a dialogue between Art and Design.

# 3. THE STUDIO

Located at old Jaffa, just next to the famous flea market and the beautiful beaches of Tel-Aviv, our studio is where we make it all happen: designing, sketching, mixing and matching, casting ceramic materials, painting, kilning, and meeting good people for a good cup of coffee.

We create everything in-house, our models, molds, casting materials, clay, glazes and underglazes. We put a lot of attention in the little details of our products, yet our latest collection is as minimalist as it gets.

Browse through our contemporary designs, and find kitchen essentials, dining table centerpieces, living room decorations, modern Judaica items and more.

# 4. WHAT INSPIRES US

The inspiration for our recent collection was based on forms and colours. Our colour inspiration came from coloured clay research, we made a lot of tests by mixing different amounts of pigments with clay and the results were beautiful. We chose the colours out of those beautiful results for our collection's main colour palette. Our form inspiration came from different plants and from the 70's decorative items style. We tried to understand what it is that we like so much about those 70's shapes, and gave them our own modern interpretation and twist.

We always try to find new inspirations, we are constantly reaching out for the unknown, studying our environment and the nature of the people around us, stimulating our creative drive by dreaming and imagining.
